ENDESA AND LEROY MERLIN SIGN AN AGREEMENT TO OFFER ELECTRICITY AND GAS

- *Leroy Merlin customers will be able to sign up for Endesa's electricity and gas services and get special discounts on their purchases.*
- *This service is now available at the Leroy Merlin centres in Majadahonda and Las Rozas.*

Madrid, 9 August 2019 — Endesa and Leroy Merlin have signed an agreement enabling customers to purchase electricity, gas and face-to-face technical services at DIY-sector leader Leroy Merlin stores. It is currently only available in some stores, but customers who purchase Endesa's services at these establishments will get special discounts.

Thanks to this agreement, Leroy Merlin customers now have the option to purchase Endesa's supply and maintenance services when they make a purchase from the Majadahonda and Las Rozas stores, both in Madrid. From September, this will also be possible at the Leroy Merlin stores in Massanassa, Barakaldo, A Coruña and San Cugat.

In addition, by purchasing Endesa's electricity and gas services, customers may become eligible for a discount on their Leroy Merlin purchase, which will vary depending on the product purchased. The discount is immediate and applied at the point of sale.

Javier Uriarte, Endesa's General Manager of Market Iberia, believes that this agreement is one more step in Endesa's new drive to hold its position as Spain's leading electricity and gas supplier in an increasingly competitive market.
