Thank you very much for enquiring about our offers.

By subscribing to **One Luz** you will enjoy our best online price and you will can manage everything in internet.

10%

Discount on the power unit indefinitely.

10%

Discount on the power unit for 1 year.

Prices

Prices for contracted powers up to 15 kW. Prices do not include taxes

Power term €/kW and year	33,861612 7,997304	On-peak Off-peak
Power Unit €/kWh	Promoted price 0,150400	Non-promoted price 0,188000

This offer requires subscribing online or via the Endesa App, signing up to the e-billing service, paying your bills by direct debit and carrying out all your processes online or via the Endesa App. Failure to comply with these conditions for the duration of the contract could entail the loss of the advantages associated with this offer.

Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards (Accordingly, the consumption profile considered shall be P1=28%, P2=26% and P3=46%).

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

The regulated cost associated with the financing mechanism of the social rate will be added to the prices: Fixed cost per customer (commercialization) of 0.03671762 €/day (Peninsula and Balearic Islands: 0.03874627 €/day taxes included for powers lower than 10kW and, for the rest of cases, 0.04465046 €/day taxes included; Canary Islands: 0.03690121 €/day taxes included for powers lower than 10kW and domestic customer and, for the rest of cases, 0.03800824 €/day taxes included).

Customer can choose between monthly and bimonthly invoicing (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected).

For peninsular supply points, the regulated cost of financing the gas ceiling established in RDL 10/2022 will also be added to the electricity prices. This measure approved by the Government establishes a cap on the cost of gas that is applied to the generation of electricity, and among other aspects, supposes an additional regulated cost to finance the measure itself. This regulated cost will be included in the invoice under the concept "Cap cost of gas RDL 10/2022".

Electricity shall be billed according to the consumption as indicated by the distribution company pursuant to the hourly curve load. If this curve is not available at the time of billing for the electricity, this shall be distributed hourly by the distribution company using the estimated consumption pursuant to the official public consumption profile published by Red Eléctrica de España (www.ree.es) for the relevant access tariff. You can check the curve applied to each invoice at www.endesaclientes.com.

Any other charge that the distributor may make, which is not expressly reflected in this document, will be transferred to the client. For example, excess power, reactive energy, rental of metering equipment, rights, etc.
