

Tempo Happy

Thank you very much for enquiring about our offers.

By subscribing to **Tempo Happy** you will enjoy time periods in which your electricity consumption will cost you €0.

0 €/kWh

Energy consumed during Happy Hours.

0 €/kWh

The consumption of your first month, only valid for new customers.

10 %

One year discount on the energy term only valid for new electricity contracts.

2 %

Discount on unit price 1 year for subscribing to the electronic billing system for this contract.

Prices

Prices with discounts included. Prices do not include taxes

Power term €/kW and year	34,467660	On-peak	
	9,583932	Off-peak	
Power Unit €/kWh	Promoted price 0	H. Happy	Non-promoted price 0
	0,309760	Rest h.	0,352000
		H. Happy	Rest h.

Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards (Accordingly, the consumption profile considered shall be P1=28%, P2=26% and P3=46%). Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update)

The regulated cost associated with the financing mechanism of the social rate will be added to the prices: Fixed cost per customer (commercialization) of 0.03845461€/day (Peninsula and Balearic Islands: 0.04057923€/day taxes included for powers lower than 10kW and, for the rest of cases, 0.04676273€/day taxes included; Canary Islands: 0.03864689€/day taxes included for powers lower than 10kW and domestic customer and, for the rest of cases, 0.03980629€/day taxes included; Ceuta and Melilla: 0.03903336€/day taxes included)

For peninsular supply points, the regulated cost of financing the gas ceiling established in RDL 10/2022 will also be added to the electricity prices. This measure approved by the Government establishes a cap on the cost of gas that is applied to the generation of electricity, and among other aspects, supposes an additional regulated cost to finance the measure itself. This regulated cost will be included in the invoice under the concept "Cap cost of gas RDL 10/2022".

The customer can choose the Happy hours from among the options available and can change them for the entire billing cycle in progress and afterwards: (a) 2 consecutive hours of every day, which will be repeated every day, (b) 1 entire day of the week, which will be repeated every week or © the 50 hours of highest consumption of the month (the number of Happy hours will be proportional to the days included in the invoiced period).

Electricity shall be billed according to the consumption as indicated by the distribution company pursuant to the hourly curve load. If this curve is not available at the time of billing for the electricity, this shall be distributed hourly by the distribution company using the estimated consumption pursuant to the official public consumption profile published by Red Eléctrica de España (www.ree.es) for the relevant access tariff. You can check the curve applied to each invoice at www.endesaclientes.com.

For billing on paper, the periodicity will be bimonthly. For electronic invoicing the customer can choose between monthly and bimonthly (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected). The periodicity will always be monthly for invoicing by maximeter.

First hours, since contract activation, to 0 €/kWh. Check at www.cambiateaendesa.com.

The first invoice that is issued each year, whose billing cycle contains the anniversary date of the contract activation date, will benefit from the first 720 hours of electricity at 0€/kWh, as long as the offers that you contracted for this promotion remain active.
