Prices

Prices with discounts included. IVA 21% included. Electricity Tax 5,11269632% included.

Power term
€/kW and month

3,727906	On-peak
0,627919	Off-peak

Power Unit
€/kWh

0	H. Happy
0,258370	Rest h.

Enjoy a month of free consumption

Also, you will have a month of free consumption forever

Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards (Accordingly, the consumption profile considered shall be P1=28%, P2=26% and P3=46%).

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

Any other charge that the distributor may make, which is not expressly reflected in this document, will be transferred to the client. For example, excess power, reactive energy, rental of metering equipment, rights, etc.

The customer can choose the Happy hours from among the options available and can change them for the entire billing cycle in progress and afterwards: (a) 2 consecutive hours of every day, which will be repeated every day, (b) 1 entire day of the week, which will be repeated every week or © the 50 hours of highest consumption of the month (the number of Happy hours will be proportional to the days included in the invoiced period).

Electricity shall be billed according to the consumption as indicated by the distribution company pursuant to the hourly curve load. If this curve is not available at the time of billing for the electricity, this shall be distributed hourly by the distribution company using the estimated consumption pursuant to the official public consumption profile published by Red Eléctrica de España (www.ree.es) for the relevant access tariff. You can check the curve applied to each invoice at www.endesaclientes.com.

For billing on paper, the periodicity will be bimonthly. For electronic invoicing the customer can choose between monthly and bimonthly (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected). The periodicity will always be monthly for invoicing by maximeter.

First hours, since contract activation, to 0 €/kWh. Check at www.cambiateaendesa.com.

The first invoice that is issued each year, whose billing cycle contains the anniversary date of the contract activation date, will benefit from the first 720 hours of electricity at 0€/kWh, as long as the offers that you contracted for this promotion remain active.
