Enjoy your first month for free

Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards. Any other charges made by the distribution company such as reactive energy, lease of metering equipment, rights, etc. shall also be transferred to the customer.

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

The customer can choose the Happy hours from among the options available and can change them for the entire billing cycle in progress and afterwards: (a) 2 consecutive hours of every day, which will be repeated every day, (b) 1 entire day of the week, which will be repeated every week or © the 50 hours of highest consumption of the month (the number of Happy hours will be proportional to the days included in the invoiced period).

To bill the energy, the consumption as indicated by the distributor according to the hourly load curve. If at the time of billing is not available, the consumption will be distributed hour by hour in accordance with the "Pa" profile published by Red Eléctrica de España (www.ree.es). You can check the curve applied to each invoice at www.endesaclientes.com.

For billing on paper, the periodicity will be bimonthly. For electronic invoicing the customer can choose between monthly and bimonthly (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected). The periodicity will always be monthly for invoicing by maximeter.
